

The next year will be one of the most enlivening and inspiring of your life. Please feel free to ask your Mentor any questions you may have as you read through the following description of the program. The Soul Purpose FastTrack™ is organized into seven distinctive stages, which are: The Sacred Path™, The Soul Purpose Accelerator™, The Enlightened Capitalist™, The Mind-Spirit Bridge™, The Prosperity Progression™, State of Being™, and The Spiritual Paradigm™.

The Sacred Path™ – *The way to peace and happiness™*

The Sacred Path reveals the essence of the course, determines where you are stuck, and gives you the tools to achieve greater peace and happiness. In this stage the Stairway of Selves is used as a diagnostic tool to reveal hidden personal issues and soul errors to be corrected throughout the course. Much like differing depths in the sea attract different types of fish, different steps on the stairway bring different versions of you. The higher you go up the stairway, the greater the levels of power you access. In this stage we are very focused on making God a forethought rather than an afterthought.

The Soul Purpose Accelerator™ – *Creating your individual legacy™*

The Soul Purpose Accelerator helps you more fully fine-tune your Soul Purpose, which is the embodiment of who you were meant to be in this life, including the God-given talents that you innately possess that you can utilize to create value and happiness in your own life and in the lives of others. The Soul Purpose Accelerator identifies the issues in which you are leaking lost-opportunity energy, and teaches you to recapture it, so the energy can be redirected towards spiritual disciplines. You will have the opportunity to clearly identify the weak-force attractor people and situations in your life, which allows you to align with only strong-force attractors. This stage is designed to pull the bowstring back and release the arrow of greater power towards the target of Soul Purpose. This creates a positive tension that accelerates your Soul Purpose into the framework of a specific master plan, which will begin in the next stage.

The Enlightened Capitalist™ – Pragmatic purpose™

The Enlightened Capitalist is the understanding that Soul Purpose cannot exist without free markets in which to exchange it. In this stage we ‘try on’ the concept of giving away our Soul Purpose talent into the marketplace just to witness what value it provides. We come to personally understand what value exchange means by deeply observing the important role that the Soul Purpose of others plays in our own lives, as well. The Enlightened Capitalist discovers that the true road to wealth is not reducing expenses or trying to do everything themselves; rather, it’s doing what they do best, and then finding others who compliment them with different gifts, and synergizing to accomplish more. At this stage we are getting specific about the Soul Purpose theme, and how one’s own unique contribution offers something that is now missing in the market place. We then co-create a rough draft of the values and systems necessary to deliver this unique value in business form.

The Mind/Spirit Bridge™ – Creating from the highest plane of potential™

The Mind/Spirit Bridge is typically the most challenging because the student experiences an ego-dissolution. To the ego-self this is a death and seen as a great loss and is therefore resisted. The spiritual discipline of surrender is a process of unlearning. One sees that personal will is ego, and that one must be willing to surrender the personal will in service to the Will of the Divine. There is often resistance to this concept, and if it is surrendered, the first layer of ego dies quickly. If the ego-death is resisted, the struggle actually prolongs the process and suffering occurs. This stage emphasizes the value of the team, the tools, and one’s individual devotion to God as they become paramount to carry you over the threshold. As you persist onward, your true self more fully awakens. Soul Purpose is fully understood as Divine Will. You are transcending from worrying about your true Human Life Value, which is in the mental realm, to realizing the inevitability of one’s Divine Life Value in the spiritual realm, which is unstoppable.

The Prosperity Progression™ – Remember God, Choose love, Create value™

The Prosperity Progression is about weaving sacred prosperity beliefs into the new version of Self that is living with an awakened spirit. It is a reinstallation of abundance principles, but not into the ego-mind (which has been purified) but into the spiritual mind (which is now awakened). When this higher version of you comes into contact with the prosperity beliefs within the prosperity paradigm, it’s as if one can only focus on the core, which is to Remember God, Choose Love, and Create Value. This level of value creation is a cause that initiates

a much higher abundance effect. Spiritual alignment dramatically enhances your ability to communicate clearly, ask the right questions, and help others take action for their own highest good. Alignment allows you to be guided by a higher power. When a car's alignment is off, it swerves to and fro, prematurely wearing the tires, the frame, and needlessly wasting fuel. Once realigned, the car runs much more efficiently and can easily be driven straight to its destination. Spiritual alignment works similarly for people. The highest potential outcomes are seen more clearly, action steps for success are more apparent, while energy is better conserved and utilized.

The State of Being™ – *I am, therefore I think™*

The State of Being is about learning to BE before wanting to do or have. In this stage one has become the light of consciousness itself. It is a new spiritual paradigm in which you come to see yourself as the immortal awareness called "I AM". In the Cartesian paradigm of the mental realm it was said, "I think therefore I am." The spirit now directs the mind and the reverse becomes your experience - "I AM therefore I think". Thoughts no longer have any power over you, for instead of being enslaved by them, they become your servant. One no longer has to remember God, because at this stage one can never again forget God. One no longer has to 'choose love', because love is seen as all that is, therefore it flows through of its own accord. As it does, 'creating value' becomes as natural as breathing, as one appears to watch this unstoppable flow of purposeful spiritual energy direct your thoughts, words, and actions.

The Spiritual Paradigm™ – *Becoming a love-driven being™*

The Spiritual Paradigm is about becoming a love-driven being. In this final stage the focus is on transcending duality and unifying the I AM with All that Is. One no longer focuses on what is wrong in the world, only on the source of that which can make it right. The cause of suffering everywhere is made known to you: Ignorance. Love is seen as the only cure for ignorance, and is thus given freely without fear of misunderstanding or reprisal. Love is experienced as a way of being, not as an emotion that is given as a reward or withheld as punishment. All obstacles to love, and to being loving, fall away as an ancient primordial guidance system takes over. The world makes complete sense because its purpose is intrinsically understood.

A Brief Outline of the Soul Purpose FastTrack™ Experience

1. The Snapshot...

is a Mentoring Profile that will be filled out online and used throughout your Soul Purpose FastTrack™ experience. After completing it, your Mentors will have a better understanding of the history of your personal and spiritual path throughout life. You will identify your level of awareness, your limitations, and ways to break through and embrace your Soul Purpose. This program is *your* program. The Snapshot allows you to plot a course to achieve an intimate, rewarding, and infinitely meaningful connection to your Higher Power. The Snapshot acts as a guide for your Mentors to tailor your education throughout this process. It will also allow you to measure your progress throughout the program.

2. Personal Mentor Meetings...

are the heart of the program. They are a series of one-on-one conversations with your Mentor's via telephone or videocast. In these sessions, the program is tailored to address your specific wants, identify issues, create trust and relationship, and ultimately give yourself permission to become spiritually aligned. The sessions personalize your experience by encouraging you to see your greatness through the power of your communication, questions, and very personalized path to your Soul Purpose.

The Mentoring team is made up of your Lead Mentor, a Mentoring Advisor, and the entire team at The Prosperity Paradigm. The Mentor will lead your program and customize your experience. The Mentoring Advisor will assist the Mentor in capturing the notes, follow-up and details surrounding your meetings. Your Mentoring Advisor will also meet with you to create accountability, answer questions, deal with breakdowns, or to offer any additional support and enhance value surrounding your Soul Purpose FastTrack experience.

3. The Progression Monitor...

will assist you to overcome spiritual traps, reinforce key insights like the natural laws, reiterate the spiritual disciplines, or whatever topic is relevant to each stage. You will receive one tutorial CD per stage in your progression monitor. There is also a specific recording, titled after the stage you are in, to prepare you for your Mentoring sessions and to reinforce the principles and models you will be discussing. After each stage is completed there is also an advanced audio to listen to after your Mentoring meeting. There are three audio CD's per stage, for each of the seven stages. Each stage also has written guidance specific to your process and the Soul Purpose FastTrack. All of these tools are designed to ignite and kindle your Soul Purpose as you go through the process.

4. The Workbook...

is designed to keep the mind focused on spiritual work during the phases in between calls, retreats, or listening to the recorded material. It is unique in that it interactively requires one to think about spiritual solutions to problems that challenge the ego-thinking mind. The workbook text and questions take you through a process of discovery, personalization, and internalization. It contains specific exercises your Mentoring Team will lead you through, concentrating on increased awareness and Self-actualization.

5. The Soul Purpose Intensive...

is a multi-day symposium, unlike any other in the world. This is because most seminars focus solely on learning concepts for acquiring something material. Together we will embark upon a journey of unlearning, relinquishing, surrendering and non-attaching from beliefs, control issues and old habits that are destructive and counter-productive. In the first session, we begin with revealing the overarching foundational philosophy of lasting power and joy given to us by the great beings in history. The next day we deepen that power with a comprehensive interactive discussion of the natural laws, the spiritual disciplines, and the spiritual formula for deepening joy, health, and wealth. The final day is the most advanced and also the most interactive, in which every student becomes the teacher.

6. The Awakened Spirit Retreat...

is a sacred gathering in nature with other like-minded souls. The power of intentionally doing your spiritual disciplines with a group of fellow seekers in a breath-taking natural setting is a life-altering experience. It is an unplugging from the distractions and busyness of life to return to the primal energy and divine spark of life, as it was in the beginning. Coming together as a Soul Group will help you experience profound shifts. Imagine hiking to a point where meditation calls you to a feeling of calm and oneness, having group discussions with other awakened individuals over a weekend at a carefully chosen location. At retreats, chefs prepare healthy meals, participants go on hikes, are able to participate in yoga, guided meditations, sacred music and drumming, and powerful group discussions.

7. The Mentor Corner... (Webinars, Videocasts, or Conference Calls)

is a way to continue the progress and keep the momentum in the program. Furthermore, it deals with the three critical R's of internalization- Repetition, Reiteration, and Realization. This ignites the fuel to persist on the Sacred Path and ascend up the Stairway of Selves. It brings your Soul Purpose to the surface through education designed to identify and remove fallacies, limitations, and obstacles due to old views or falsehoods previously unrecognized. These presentations may be viewable online, in person, or over the phone.

8. Additional content...

will be supplied to facilitate the re-patterning process. These include, but are not limited to: Meditation CD's, Music for Healing CD's, Pattern-Interrupt bracelets, Reality Statements, DVDs, and reading material.

Commitment of Understanding

To proceed in The Soul Purpose FastTrack™, you will be asked to commit fully to your spiritual education and growth, just as your personal Mentors have done. The first requirement of this commitment is that you complete The Application included with the introduction packet for The Sacred Path. The Freedom FastTrack Application contains questions for all Tracks. You will fill out the personal profile and then proceed to the Soul Purpose pages. If accepted into the program, your commitment ensures that you will attend all scheduled meetings with your Mentors, or give 24 hours notice in the event that you cannot attend a scheduled meeting. If you have not yet scheduled an initial Sacred Path meeting with your Mentor, please do so now by calling the Prosperity paradigm™ at 1-800-452-7203 or sending an email to schedule@theprosperityparadigm.com. When you have completed your Application, send it to your Mentor or the administrator with The Prosperity Paradigm™. Other commitments of The Soul Purpose FastTrack™ are outlined below.

We would love to be able to guarantee that at the end of the course you will have absolutely discovered your Soul Purpose and be living it, but this is just not so. This is because the hidden variable is you. What you choose to bring to the table will determine all results. These results are directly proportionate to your:

- Commitment to the spiritual disciplines
- Intensity of aspiration
- Ability to communicate openly and authentically
- Dedication to focus on the materials as often as possible without upsetting your life-balance in other important areas (family, business, etc)
- Willingness to persist when the ego inevitably begins to shed
- Receptivity to being made responsible for personal progress
- Open-ness to being held accountable
- Discipline to do all action steps to the best of one's ability
- Devotion to God and to understanding one's Divine Life Value

What we can promise is that this year will be one of the most powerful and rewarding experiences of your life. If you give yourself permission, you will truly experience a deeper connection to God, deepen your own appreciation of self, experience greater joy, and you will leave fear, doubt and worry behind you.

Let the journey begin...
